📄 PROFILE

Motivated Computer Science and Engineering student with hands-on experience in Python, data analysis, and machine learning fundamentals. Experienced in working with real-world datasets, building models, and solving practical problems. Eager to apply analytical skills and grow through a machine learning internship.

🧠 SKILLS

Programming Languages:

Python, C++
Java, JavaScript, PHP

Machine Learning :

Supervised Learning, Regression
Classification, Model Evaluation

Libraries:

NumPy, Pandas
Matplotlib, Scikit-learn

Databases :

MySQL, MongoDB

Tools :

Jupyter Notebook, Google Colab
GitHub, VS Code
MySQL Workbench, Git

🎓 EDUCATION

Computer Science and Engineering

Adama Science and Technology University

2022 – 2027 | Adama, Ethiopia

📁 PROJECTS

Text-Based Search Engine (Vector Space Model)

Built a document search system using TF-IDF and cosine similarity to rank text by relevance.

Urban Air Pollution Analysis

(Zindi Challenge)

Cleaned and analyzed real-world air pollution data to prepare it for machine learning models.

🏠 INTERNSHIP

Hawi Software Solution

Backend Developer

07/2025 – 09/2025

📖 COURSES

Supervised Machine Learning

Stanford University

01/2024 – 03/2024

AI Agents and Agentic AI with Python & Generative AI

Vanderbilt University

01/2025 – 29/2025

🏆 ACHIEVEMENTS

- Participated in **Codeforces contests** and solved algorithmic problems on **LeetCode**
- Competed in **Zindi machine learning challenges** using real-world datasets
- Completed certified courses in **Machine Learning and AI**

🔑 INTERESTS

Reading books
Problem-solving video games
Walking and critical thinking
